

# AENOR

## **International expert in the field of drafting environmental consultancy studies.**

Under the Framework Contract "Consultancy in environmental management systems, reduction and offsetting of greenhouse gas emissions" AENOR is expanding its network of experts and partners' companies in the field of drafting environmental consultancy studies on the following tentative topics:

- Carbon Footprint Calculation or Bilan Carbone.
- Energy audits. Technical study on energy consumption.
- Sustainable mobility study.
- Minimising water consumption.
- Sustainable waste management.
- Feasibility of implementing alternative energy systems.
- Integration of the SDGs into the organizations' strategy.
- Environmental Risk Analysis.
- Strategic emissions reduction plans.
- Analysis of the contribution to the EU's environmental objectives (Green Deal).
- Sustainability Reports in accordance with GRI standards.
- Sustainable Purchasing Management.

The studies will be realised for 17 European offices and agencies located in European countries.

The specific requirements for Senior consultant are:

- Bachelor's degree in Engineering or Master's degree in Agricultural, Biological or Environmental Sciences or equivalent
- A minimum of 7 years' professional experience in drafting technical environmental studies in the field of reducing and offsetting greenhouse gas emissions, on topics such as those listed above.
- High degree of initiative, organisation, autonomy and flexibility.
- Knowledge of English must be at least C1 according to the Common European Framework of Reference Languages
- Experience in training on topics such as those listed above will be valuable.
